Product Description

Portable Powerhouse

Shredder reduces yard and garden waste 10:1!

Warranty Coverage

Product Summary

- 3" chipping capacity
- 1/2" shredding capacity
- 8 free-swinging shredder hammers
- Tubular handlebar for easy maneuvering
- 6.6 HP (233 cc) DR OHV engine
- Manual-starting
- 10.4" x 7.2" chipper hopper opening
- 19.8" x 13.7" shredder hopper opening
- Hardened steel PRO-SPEC™ chipper knife
- Wheels: 14" x 2"

Warranty Coverage

- Machine: 2 years residential; 90 days commercial
- Engine: 2 years residential; 90 days commercial

Features

Lightweight and Portable Easy-to-grasp handlebar (even with gloves on) for smooth maneuvering around the jobsite or in and out of storage. A convenient foot-plate, below the recoil, gives you control as you tilt the

machine toward you or "park" it in operating position.

"Kickstand" provides Stability and Mobility Designed for maneuvering around your yard easily, the "kickstand" makes it easy to transition between travel mode and work mode. Just lie it back on its wheels (like a mover's dolly) to travel, then rest it on the kickstand when you're done.

Compact Powerhouse Don't let its size fool you. This machine has serious power and will make short work of branches up to 3" in diameter, and armloads of yard and garden waste up to a half inch in diameter. Its nimbleness makes it a great choice for working in heavily landscaped areas.

DR OHV Engine The 6.6 HP OHV engine (223cc) has plenty of power for processing hardwood branches and churning through armloads of yard and garden waste.

Pro-Spec™ Chipper Knife Made of high-carbon/high-chromium forged alloy tool steel, our knives hold an edge longer than those on "bargain" chippers. Still, as with any cutting tool, keeping a sharp edge is important for maintaining peak performance. We recommend keeping an extra on hand so you can minimize downtime.
