Product Description

3-Blade, 60" Wide Deck

The MOW PRO-60 uses a three blade design to cover its 5-foot mowing swath. Cut materials are chopped and re-chopped under the deck prior to discharge on the right side.

Mow up to 2.7 acres per hour!

Plus, you can mow even more territory, in the same time, when you use MOW PRO-60 with your riding mower to expand your cutting width.

Product Summary

- 15.5 HP Electric-Starting engine
- 60" mowing deck
- Mows up to 2.75 acres per hour
- Tow Vehicles for stand-alone mowing: use ATV, UTV, or Tractor

- Mows outside wheelbase
- 3 blades partially mulch before discharging
- See Features and Specs Tabs for more product details

Warranty Coverage

- 15.5 HP Electric-Starting engine
- Engine: 2 years residential; 1 year commercial

Features

With its wide cut, the DR Finish Mower can function as a solo tow-behind, or you can use it as an outrigger mower along with your riding mower and increase your cut width dramatically...even DOUBLE it.

Floating Deck Rises up and over obstacles. This helps minimize scalping while preventing damage to your mower's blade, spindle, and engine from roots, stumps, rocks, and hummocks.

The two-piece tow bar allows you to offset the mower to either side (up to 76") or mow straight behind your tow vehicle.

With its wide cut, the DR Finish Mower can function as a solo tow-behind, or you can use it as an outrigger mower along with your riding mower and increase your cut width dramatically...even DOUBLE it.

Three heavy-duty mowing blades cover the 60" cutting width. Material is partially mulched before being discharged.

Two simple hand cranks offer infinite cutting height adjustment between 1.5" and 5.5".

The legendary power, performance and durability of Briggs & Stratton® engines make them perfect for use on our Tow-Behind Finish Mowers. They are easy to start, comfortable to use, and feature a debris management system that protects the engine from whatever you kick up while you're cutting.

Keep the mowing deck suspended to prevent gouging when mowing on uneven terrain.
