Product Description

STIHL GTA 26 Cordless Pruner

The STIHL GTA 26 battery-powered cordless garden pruner is the first of its kind on the U.S. market. With its lightweight and compact design, the GTA 26 garden pruner is ideal for a range of gardening tasks. The four-inch guide bar allows for precise cutting and pruning, and its size makes it possible to get to those hard-to-reach spots. Its rubber grips provide ease of use and minimize wrist torsion. This pruner is also easy to maintain with toolless replacement of the removable bar and chain. This saw chain gives you the ability to make smooth and precise cuts with a lower kickback tendency. An LED light display provides charge level and status of the tool. With a battery, charger, multi-oil, and even a transport bag included, the GTA 26 garden pruner set comes with everything you need to take on a variety of landscaping tasks.
