Product Description

STIHL KMA 80 R Trimmer Set

The KMA 80 R includes the FS-KM line head trimmer attachment and works with over 15 others to tackle a wide range of yard tasks.

The KMA 80 R is part of the AK Homeowner Battery System. Built with the same durable components as the gas-powered KM 56 RC-E, this battery-powered KombiMotor delivers powerful performance with high RPMs and a virtually maintenance-free brushless motor. It's compatible with up to 15 optional attachments—including the FS-KM line head trimmer—for tasks ranging from trimming to edging to pruning. Attachments are easily interchangeable between both battery and gas KombiMotors, making the KMA 80 R with FS-KM a highly efficient and versatile tool for homeowners; additional attachments are sold separately.
